RE: Public Records Request Received January 5, 2018
File Number: PRR-2018-0001

Dear Mr. Coyote:

Thank you for your recent payment for records responsive to your public records request dated January 1st, which was received in this office on January 5, 2018 for the following documents:

This is a request to obtain copies of all documents regarding Betty Boop, Daffy Duck or anything regarding case number 18-1-00765-1.

Enclosed please find Production 1, pages 1 through 265, which have been printed. Please note there are redactions (black boxes) on various pages of the responsive documents. This redaction may be small or large, depending on the size of the redaction, and there may be multiple redactions on a page. Within the redaction is a white code, which will look something along the lines of [1]. The code printed within the redaction corresponds to the exemption for that redaction identified on the redaction log. Also provided with these responsive documents is a redaction log that identifies the statutory basis for the exemption as well as a brief explanation for why the exemption applies. As you review these responsive documents, you will be able to refer to the exemption log to identify the exemptions and their application.

We have attempted to avoid duplicates or blank pages; however, sometimes these issues do occur. In addition, we have also made every attempt to apply consistent redactions on documents that contain the same information. In the event you locate documents that contain redactions that are inconsistently applied, please let us know as soon as possible. Please be aware the disclosure of information in the records produced does not constitute a waiver of attorney-client and/or work product privileges.

W. Coyote

I estimate additional documents will be available on or before March 30, 2018. If this time estimate changes I will advise you.

If you have any questions, please feel free to contact me at (111) 222-4343 or at my mailing address. Thank you.

Sincerely,

R. Runner
Public Records Officer
